

SKYEYES

SPRING/  
SUMMER  
2018

Playing with volumes, effects of texture, combinations of patterns and sophisticated materials, Sky Eyes sun models are essential like trendy accessories, mixing style, creativity and love of fashion. In an original and extremely diversified stylistic register, the Marseilles brand declines with talent the latest trends in fashion. Retro, over-size, butterfly, or round, the models are renewed at each collection and seduce by their creativity and stylistic differentiating signature. The know-how positions the brand in the high-end and makes Sky Eyes a brand both fashion and creative, for all budgets.

It is in Marseille that Jean-François Rey and his team of designers (the J.F. Rey Studio) are working on the revival of French design and imagine creative glasses and upscale, with a choice of creative materials and techniques among the most innovative. For more than 30 years, the designer has dressed men and women with elegant, original and innovative frames. Always following his instinct and his passion for design, the creator has revolutionized the world of eyewear by imposing a new style, differentiator and offbeat, now a reference on the international eyewear scene.
